

## **Circular 296/2020: Graduation Ceremonies Postponed**

Dear Students,

After careful consideration and consultation with the health authorities and the MCAST Student Council, we have taken the difficult decision to postpone graduation ceremonies initially planned for the end of November.

We will inform you about the new graduation ceremony dates in 2021 subject to government COVID-19 guidelines at the time. All students who have completed their studies will receive their transcripts which are needed to progress with further studies and career opportunities.

We know that the graduation ceremony is the culmination of your hard work and learning journey. However, at this time, it is crucial to minimise the risk to our community and to postpone large ceremonies so that you can fully celebrate your achievements with family, friends and lecturers when it is safer to do so.
