| Language of Instruction The official language of instruction at MCAST is English. All notes and textbooks are in English (except for language curses, which will be in the respective language being instructed). International candidates will be requested to meet English language certification requirements for access to the course. Applications to full-time courses are received online via the College Management Information System. Applicants can log-in using Maltese Electronic ID (eID) in order to access the MCAST Admissions Portal directly and create one's own student account with the identity being verified electronically via this secure service. Non-EID applicants need to request account creation though an online form after that they confirm that their local identification Document does not come with an EID entitlement. Once the identity is verified and the account is created on behalf of the applicant, one may proceed with the online application according to the same instructions applicable to all other applicants. For more information about how to apply online for a course at MCAST, please visit; https://mcast.edu.mt/how-to-apply-online-2/ Non-EU candidates require a study visa in order to travel to Malta and join the course application for Mon-EU candidates require a study visa in order to travel to Malta and join the course applied for (on a Full Time delivery mode). For further information requesting to being considered for a programme of studies at MCAST, can be obtained through the respective FAQ found on https://mcast.edu.mt/important-information/ In instances where a TCN is applying for an MCAST programme of studies which includes Apprenticeship / Placement / Internship, it is the applicant's responsibility to check with the relevant Maltese Authority whether one would be eligible to have the necessary permits to be able to carefuled Apprenticeship / Placement / Internship, success from which is expected in order to be able to successfully | | |

Luga Road, Qormi Gozo Campus J.F. De Chambray Street MCAST, Għajnsielem Gozo In the case of courses delivered via Online Learning, students will be following the programme from their preferred location/address. Programmes delivered via Blended Learning, and which therefore contain both an online and a face to face component shall be delivered as follows: Face to Face components – as per above address instructions Online components – from the student's preferred address. The Master of Science in Applied Environmental Science takes an interdisciplinary approach into the investigation of processes that control the earth and its environment. The programme will deliver all necessary knowledge and skills to seize opportunities presented by new developments in areas such as global cycles, biogeochemistry, sustainable technologies, waste and water treatment. environmental pollution assessment and remediation, and natural hazard. Students will be exposed to a wide variety of environmental issues, with topics related to the analysis, understanding and management of human-environmental systems by Course exploring the basics of system analysis and ecosystem theory. By understanding Description human-environmental interactions through land-use conflicts between agriculture, (Refer to Programme Specification) environmental protection, urban expansion, water management, tourism etc... students will be able to link advanced methods of system analysis and ecological modelling with modern methods of natural resource management. Issues associated with the relationship between material/energy resources, the environment and sustainable development will be a recurring theme in this programme. Fees apply - Further information through MG2i (MCAST Gateway to Industry) II-Master of Science fix-Xjenza Ambjentali Applikata juża metodu interdixxiplinarju fl investigazzioni tal-processi li jikkontrollaw id-dinja u l-ambjent taghha. Il-programm se jagħti l-għarfien u l-ħiliet kollha meħtieġa biex l-istudenti jaħtfu l-opportunitajiet ippreżentati minn żviluppi godda fogsma bhac-cikli globali, il-bijogeokimika, it teknologiji sostenibbli, it-trattament tal-iskart u tal-ilma, il-valutazzjoni u r-rimedju tat tniagis ambientali, u I-periklu naturali, L-istudenti se ikunu esposti aħal varietà wiesgħa ta' kwistjonijiet ambjentali, b'suġġetti relatati mal-analiżi, u l-immaniġġjar tas-sistemi umani-ambientali billi jesploraw il-bazi tal-analizi tas-sistema u t-teorija Deskrizzjoni taltal-ekosistema. Billi jifhmu l-interazzjonijiet bejn il-bniedem u l-ambjent permezz ta' **Kors** kunflitti bejn I-użu tal-art u I-agrikoltura u I-protezzjoni ambjentali, I-espansjoni (Refer to Programme Specification) urbana, I-immaniggiar tal-ilma, it-turizmu ecc., I-istudenti įkunu jistghu įghaggdu metodi avvanzati ta' analizi tas-sistema u mudellar ekologiku ma 'metodi moderni ta' ģestjoni tar-rizorsi naturali. Kwistjonijiet assocjati mar-relazzjoni bejn ir-rizorsi materjali/energija, I-ambjent u I-iżvilupp sostenibbli se įkunu tema rikorrenti f'dan ilprogramm. MIŻATI: Japplikaw ħlasijiet - Aktar informazzjoni permezz ta' MG2i (MCAST Gateway to Industry) Career **Opportunities:** Applicants must hold a recognised MQF/EQF Level 6 qualification, with at least 180 **Entry** credits, in any from the fields of Engineering, Environment, Physics, Geography, Requirements Biology, or Chemistry.

| 40 mm 1 mm | |
|--|--|
| (Refer to Prospectus / Course Page on MCAST website) | Applicants found eligible as per above, will also be asked to successfully complete a Master's Programnme Suitability Interview |
| Other Notes related to this | In the absence of above entry requirements, applicants aged 27 years and over, can submit an application under the Maturity Clause but must present a recognised MQF/EQF Level 5 (minimum 120 credits) qualification, or its equivalent, in the fields mentioned above in the Entry Requirement section, together with clear evidence of a minimum of five (5) years (full time) of direct and relevant professional experience. |
| Programme, and which are to be taken note of | Applicants under Maturity Clause, will be asked to sit for a combined Maturity and Master's Suitability Interview. |
| taken note of | This Master's Programme MAY be available as Full-Time delivery, only if this same programme will be taking off for an International Cohort. Fees apply as will be guided by MG2i (MCAST Gateway to Industry). Information about this Master's Programme being offered on a Part-Time delivery mode, can be found on the MG2i Website promoting such programmes - https://mg2imalta.com/. |
| | At the end of the programme the students are able to; Demonstrate a strong applied background in natural resource environment, environmental quality, and analysis. Be familiar with computational tools for spatial analysis together with data management, statistics and modelling which have become essential tools in the environmental field. |
| Programme Learning Outcomes (Refer to Programme Specification) | Identify how research methods can help practitioners innovate and inform policy decisions. Evaluate the local, regional and global scale of environmental problems. Evaluate the performance of environmental technologies and incorporate innovative solutions to solve challenges related to the natural and urban environment. Design and carry out research using appropriate data collection strategies and analyses methods to develop solutions to environmental problems and sustainability challenges. |
| Teaching, Learning and Assessment | The programmes offered are vocational in nature and entail both theoretical lectures delivered in classes as well as practical elements that are delivered in laboratories, workshops, salons, simulators as the module requirements dictate. |
| Procedures | Each module or unit entails a number of in person and/or online contact learning hours that are delivered by the lecturer or tutor directly (See also section 'Total Learning Hours). |
| | Access to all resources is provided to all registered students. These include study resources in paper or electronic format through the Library and Resource Centre as well as tools, software, equipment and machinery that are provided by the respective institutes depending on the requirements of the course or module. |
| | Students may however be required to provide consumable material for use during practical sessions and projects unless these are explicitly provided by the College. |
| | All Units of study are assessed throughout the academic year through continuous assessment using a variety of assessment tools. Coursework tasks are exclusively based on the Learning Outcomes and Grading Criteria as prescribed in the course specification. The Learning Outcomes and Grading Criteria are communicated to the Student via the coursework documentation. |

The method of assessment shall reflect the Level, credit points (ECTS) and the schedule of time-tabled/non-timetabled hours of learning of each study unit. A variety of assessment instruments, not solely Time Constrained Assignments/Exams, are used to gather and interpret evidence of Student competence toward pre-established grading criteria that are aligned to the learning outcomes of each unit of the programme of study.

Grading criteria are assessed through a number of tasks, each task being assigned a number of marks. The number of grading criteria is included in the respective Programme Specification.

The distribution of marks and assessment mode depends on the nature and objectives of the unit in question.

Coursework shall normally be completed during the semester in which the Unit is delivered.

Time-constrained assignments may be held between 8 am and 8 pm during the delivery period of a Unit, or at the end of the semester in which the Unit is completed. The dates are notified and published on the Institute notice boards or through other means of communication.

Certain circumstances (such as but not limited to the COVID-19 pandemic) may lead Institutes and Centres to hold teaching and assessment remotely (online) as per MCAST QA Policy and Standard for Online Teaching, Learning and Assessment (Doc 020) available via link https://www.mcast.edu.mt/college-documents/

The Programme Regulations pertaining to this Programme's MQF/EQF level available at: link https://www.mcast.edu.mt/college-documents/, apply.

All MCAST programmes adopt a Learner-centred approach through the focus on Learning Outcomes. The assessment of MCAST programmes is criterion-referenced and thus assessors are required to assess learners' evidence against a predetermined set of Learning Outcomes and Assessment Criteria.

For a student to be deemed to have successfully passed a unit, a minimum of 50% (grade D) must be achieved.

All full time units are individually graded as follows:

A* (90-100)

A (80-89)

B (70-79)

C (60-69)

D (50-59)

Unsatisfactory work is graded as 'U'.

Work-based learning units (where applicable) are graded on a Pass/Fail basis only.

Some units which follow industry standards and regulations may also be graded on a Pass/Fail basis as per programme regulations referred below.

Detailed information regarding the grading system may be found in the Programme Regulations pertaining to this programme's MQF/EQF Level available at: https://www.mcast.edu.mt/college-documents/ (Refer to DOC 003, 004 and 005)

Exit Point (where and as applicable)

Grading System

Where a student will not make it to the Final Certification achievable from this Programme of Studies (as per Programme Regulations), one

might wish to look into Exit Point possibilities as may be applicable to this programme for studies. Further information, is available at https://www.mcast.edu.mt/college-documents/, kindly refer to DOC 077

Procedure for the processing of Claims for Certificates at Interim Exit Points.
