

# MCAST PROGRAMMES - PUBLIC INFORMATION TEMPLATE (FULL TIME)

Institute	Institute of Engineering and Transport
Department	Land Transport Department

Programme Title	Diploma in Light Vehicle Servicing						
Course Code To be filled in by Admissions Dept.	MV3-A02-25	If the programme includes a WBL element, Ap How is it accredited?			Apprentice	prenticeship	
MQF/ EQF Level	Level 3	Type (refer to Appendix 1 for Parameters)		cation	Awarding Boo		MCAST – Malta College of Arts, Science and Technology
Accreditation Stat	tus	Accredited via Self-Accreditir					MCAST holds Notice 296/2012)
Mode of Delivery	y Face to Face  Duration(Acad emic Years or Semesters)  1 Year  Attendance  Full-		Full-time				
Total Number of Credits	60 credits	Total Learning			1500 ho	urs	
Target Audience	Ages 16 - 65	Target Group  (the type of learners that the educational institution anticipates joining this programme)  Learners who have completed compulsory education			d compulsory		
Programme Fees	There are no fees applicable to Maltese and other EU Nationals (as will be evidenced by their Identity Document)  Fees apply for other International Applicants for fee information and any related updates it is best to communicate with MG2i International through applyinternational@mcast.edu.mt  One may consider checking about possible eligibility or otherwise for any exemption from fees by contacting the relevant section within MEYR (Floriana) – or visit the servizz.gov.mt website here						
Date of Next Student Intake	For further inf	formation regardsame kindly clic	• .	coming stud	ent intak	e and appli	cations time
Language of Instruction	The official language of instruction at MCAST is English. All notes and textbooks are in English (except for language courses, which will be in the respective language being instructed). International candidates will be requested to meet English						
Application Method	language certification requirements for access to the course.  Applications to full-time courses are received online via the College Management Information System. Applicants can log-in using Maltese Electronic ID (eID) in order to access the MCAST Admissions Portal directly and create one's own student account with the identity being verified electronically via this secure service.  Non-EID applicants need to request account creation though an online form after that they confirm that their local Identification Document does not come with an EID entitlement. Once the identity is verified and the account is created on behalf of the applicant, one may proceed with the online application according to the same

*3N3135 5"	
	instructions applicable to all other applicants.
	For more information about how to apply online for a course at MCAST, please visit: <a href="https://mcast.edu.mt/how-to-apply-online-2/">https://mcast.edu.mt/how-to-apply-online-2/</a>
Information for Non-EU Citizens	Non-EU candidates require a study visa in order to travel to Malta and join the course applied for (on a Full Time delivery mode). For further information re study-visa please access <a href="https://www.identitymalta.com/unit/central-visa-unit/">https://www.identitymalta.com/unit/central-visa-unit/</a> .  Further information International / TCN applicants should take note of before requesting to being considered for a programme of studies at MCAST, can be
	obtained through the respective FAQ found on <a href="https://mcast.edu.mt/important-information/">https://mcast.edu.mt/important-information/</a>
IMPORTANT note to Non-EU Nationals / TCNs	In instances where a TCN is applying for an MCAST programme of studies which includes Apprenticeship / Placement / Internship, it is the applicant's responsibility to check with the relevant Maltese Authority whether one would be eligible to have the necessary permits to be able to carry out the accredited Apprenticeship / Placement / Internship, success from which is expected in order to be able to successfully complete the selected programme of studies. Further information can also be obtained through the respective FAQ found on:  https://mcast.edu.mt/important-information/
	MCAST has four campuses as follows:
	MCAST Main Campus Triq Kordin, Paola, Malta  All courses except for courses delivered by the Institute for the Creative Arts, the Centre of Agriculture, Aquatics and Animal Sciences and the Gozo Campus are offered at the Main Campus address (above).
	Courses delivered by the Institute for the Creative Arts, the Centre of Agriculture, Aquatics and Animal Sciences, or the Gozo Campus, are offered in one of the following addresses as applicable:
Address where the Programme will be Delivered	Institute for the Creative Arts Mosta Campus Misraħ Għonoq Tarġa Gap, Mosta
	Institute of Applied Sciences Centre of Agriculture, Aquatics and Animal Sciences, Luqa Road, Qormi
	Gozo Campus J.F. De Chambray Street MCAST, Għajnsielem Gozo
	In the case of courses delivered via Online Learning, students will be following the programme from their preferred location/address.
	Programmes delivered via Blended Learning, and which therefore contain both an online and a face to face component shall be delivered as follows:

Prepared date: 2025-06-26 Page 2 of 23

	<ul> <li>Face to Face components – as per above address instructions</li> <li>Online components – from the student's preferred address.</li> </ul>
Course Description (Refer to Programme Specification)	This programme is intended for learners who would like to start developing a strong grounding in the field of motor vehicle engineering and maintenance. Through the various aspects of training that this course provides, learners should be able to gain a good understanding of the basic systems found in light vehicles and how to handle tools safely. Learners will also develop the essential skills of the trade, including the carrying out of basic routine checks, the replacement of parts as required in the periodic servicing of vehicles, and the maintenance of appropriate service records. In this programme, learners will also follow studies in key skills subjects, such as English, Maltese, Mathematics, Information Technology.
Deskrizzjoni tal- Kors (Refer to Programme Specification)	Dan il-programm huwa maħsub għal studenti li jixtiequ jibdew jiżviluppaw bażi soda fil-qasam tal-inġinerija u l-manutenzjoni ta' vetturi bil-mutur. Permezz tad-diversi aspetti tat-taħriġ ipprovduti matul dan il-kors, l-istudenti għandhom ikunu kapaċi jiksbu fehim tajjeb tas-sistemi bażiċi li wieħed isib f'vetturi żgħar, kif ukoll kif jużaw l-għodda relatata b'mod sikur. L-istudenti jiżviluppaw ukoll il-ħiliet essenzjali tas-sengħa biex jagħmlu kontrolli bażiċi ta' rutina, jibdlu parts kif meħtieġ fis-servisjar perjodiku tal-vetturi, u jżommu rekords xierqa tas-service. F'dan il-programm, l-istudenti jsegwu wkoll studji fir-rigward tas-suġġetti tal-ħiliet ewlenin, bħall-Ingliż, il-Malti, il-Matematika, it-Teknoloġija tal-Informazzjoni.
Career Opportunities:	Light Vehicle Service Mechanic, Light Vehicle Assistant Mechanic, Assistant Fitter
Entry Requirements (Refer to Prospectus / Course Page on MCAST website)	Internal Progression Route Any MCAST MQF Level 2 Foundation Certificate  OR  2 SEC / SSC&P or equivalent with a Pass Grade / Level 3
Other Notes related to this Programme, and which are to be taken note of	-
Programme Learning Outcomes (Refer to Programme Specification)	At the end of the programme the students are able to  1. Carry out checks and maintenance according to safety and road worthiness regulations;  2. Identify fault location and service needs;  3. Maintain appropriate service and repair records;  4. Carry out repairs by replacement faulty basic parts and components.
Teaching, Learning and Assessment Procedures	The programmes offered are vocational in nature and entail both theoretical lectures delivered in classes as well as practical elements that are delivered in laboratories, workshops, salons, simulators as the module requirements dictate.  Each module or unit entails a number of in person and/or online contact learning hours that are delivered by the lecturer or tutor directly (See also section 'Total Learning Hours).
	Access to all resources is provided to all registered students. These include study resources in paper or electronic format through the Library and Resource Centre as well as tools, software, equipment and machinery that are provided by the respective institutes depending on the requirements of the course or module.
	Students may however be required to provide consumable material for use during practical sessions and projects unless these are explicitly provided by the College.

All Units of study are assessed throughout the academic year through continuous assessment using a variety of assessment tools. Coursework tasks are exclusively based on the Learning Outcomes and Grading Criteria as prescribed in the course specification. The Learning Outcomes and Grading Criteria are communicated to the Student via the coursework documentation.

The method of assessment shall reflect the Level, credit points (ECTS) and the schedule of time-tabled/non-timetabled hours of learning of each study unit. A variety of assessment instruments, not solely Time Constrained Assignments/Exams, are used to gather and interpret evidence of Student competence toward pre-established grading criteria that are aligned to the learning outcomes of each unit of the programme of study.

Grading criteria are assessed through a number of tasks, each task being assigned a number of marks. The number of grading criteria is included in the respective Programme Specification.

The distribution of marks and assessment mode depends on the nature and objectives of the unit in question.

Coursework shall normally be completed during the semester in which the Unit is delivered.

Time-constrained assignments may be held between 8 am and 8 pm during the delivery period of a Unit, or at the end of the semester in which the Unit is completed. The dates are notified and published on the Institute notice boards or through other means of communication.

Certain circumstances (such as but not limited to the COVID-19 pandemic) may lead Institutes and Centres to hold teaching and assessment remotely (online) as per MCAST QA Policy and Standard for Online Teaching, Learning and Assessment (Doc 020) available via link https://www.mcast.edu.mt/college-documents/

The Programme Regulations pertaining to this Programme's MQF/EQF level available at: link https://www.mcast.edu.mt/college-documents/, apply.

All MCAST programmes adopt a Learner-centred approach through the focus on Learning Outcomes. The assessment of MCAST programmes is criterion-referenced and thus assessors are required to assess learners' evidence against a predetermined set of Learning Outcomes and Assessment Criteria.

For a student to be deemed to have successfully passed a unit, a minimum of 50% (grade D) must be achieved.

All full time units are individually graded as follows:

A\* (90-100)

A (80-89)

B (70-79)

**Grading System** 

C (60-69)

D (50-59)

Unsatisfactory work is graded as 'U'.

Work-based learning units (where applicable) are graded on a Pass/Fail basis only.

Some units which follow industry standards and regulations may also be graded on a Pass/Fail basis as per programme regulations referred below.

Detailed information regarding the grading system may be found in the Programme

Prepared date: 2025-06-26 Page 4 of 23

# ETAUT-303-1802: Body and Interiors of Light Vehicles

Unit level (MQF): 3

Credits: 3

Delivery Mode: Face to Face Total Learning Hours: 75

#### **Unit Description**

The aim of this unit is to introduce the learners to the vehicle's body and the systems that can be found in the interior of a vehicle.

Today's vehicles have accessories and system attached under body parts or behind vehicle trims. During this unit the learners will become familiar with these parts and the typical removal procedures to access various systems that different manufacturers place under body parts.

Together with the parts and interiors the unit will cover typical fastening methods used in body and interiors. Also, the importance of removal procedures and further actions required after assembly like alignment and water guarding requirements.

This unit will also introduce the learners to the vehicle lights and lamps. This should only be limited to the physical components not the electrical circuitry.

# **Learning Outcomes**

On completion of this unit the student will be able to:

- 1. Identify the construction technology of different light vehicles;
- 2. Recognise the fastening systems used in light vehicle bodies and interiors;
- 3. Understand the dangers and risks associated with safety systems found in today's light vehicle technology;
- 4. Assemble and replace body parts and interiors of a light vehicle in a safe manner and according to existing regulations.

Prepared date: 2025-06-26 Page 9 of 23

# ETAUT-302-2305: Health and Safety and Working Relationships in the Automotive Environment

Unit level (MQF): 3

Credits: 2

Delivery Mode: Face to Face Total Learning Hours: 50

#### **Unit Description**

The aim of this unit is to provide the learner with the soft skills necessary to work in an automotive environment and introduce the learner to the common practices carried out to keep a safe working environment.

Learners will familiarise themselves with the basics in Health and Safety legislations. This will provide a good background of common symbols and regulations used worldwide. As well as the importance of vehicle protection together with existing methods of vehicle protection.

The importance of good housekeeping is also introduced so that the learners will appreciate how good housekeeping can affect the working environment.

Learners will also have the opportunity to become familiar with Some communication practices that are necessary within an automotive environment. This will enable the learner to convey messages clearly and keep records in an appropriate manner for later referencing.

The learner will also be introduced to working relationship. This will include working etiquette and the hierarchy at the place of work.

# **Learning Outcomes**

On completion of this unit the student will be able to:

- 1. Apply basic health and safety and vehicle protection procedures within a light vehicle workshop;
- 2. Understand the local Health and Safety legislations and standards related to light vehicles engineering;
- 3. Apply good Housekeeping practices within a light vehicle workshop;
- 4. Identify the methods of communication and working relationships in an automotive environment.

Prepared date: 2025-06-26 Page 10 of 23

# ETAUT-305-2306: Basic Brake, Steering and Suspension Units of Light Vehicles

Unit level (MQF): 3

Credits: 5

Delivery Mode: Face to Face Total Learning Hours: 125

#### **Unit Description**

In this unit learners will familiarise themselves with the Brake, Steering and Suspension systems of light vehicle. Learners will gain the ability to identify and locate the various parts of the brake, steering and suspension units and will have the opportunity to carry out basic inspections and servicing tasks on light vehicles.

In addition to this, learners will have the opportunity to use tools and equipment safely to conduct basic tasks related to such systems. They will also use data sheets and servicing manuals during the inspection and servicing tasks.

## **Learning Outcomes**

#### On completion of this unit the student will be able to:

- 1. Identify and locate parts and components of Brake, Steering and Suspension systems in light vehicles;
- 2. Understand the basic operation and function of the brake, steering and suspension components in light vehicles;
- 3. Use tools, equipment, data sheets and manuals during servicing and when inspecting the brake, steering and suspension systems in light vehicles in a safe manner;
- 4. Replace basic brake, steering and suspension components according to maker's specifications under supervision.

Prepared date: 2025-06-26 Page 11 of 23

# ETAUT-305-2307: Basic Electrical and Electronics Units of Light Vehicles

Unit level (MQF): 3

Credits: 5

Delivery Mode: Face to Face Total Learning Hours: 125

#### **Unit Description**

The aim of this unit is to help learners familiarise with the components forming part of the Electrical and Electronic systems of light vehicle. Learners will learn to identify the parts and location of each system and will have the opportunity to carry out basic inspections and servicing tasks.

Learners will also learn how to use tools and equipment safely to conduct basic servicing tasks. They will also learn how to use data sheets and servicing manuals to inspect and service these electrical units.

## **Learning Outcomes**

#### On completion of this unit the student will be able to:

- 1. Identify electrical systems and components and their location in a light vehicle;
- 2. Understand the basic operation and function of electrical components;
- 3. Use tools, equipment, data sheets and manuals to carry out basic servicing tasks under supervision;
- 4. Understand basic operation of electronic components and work out formulas to find circuit operation values.

Prepared date: 2025-06-26 Page 12 of 23

# ETAUT-305-2308: Basic Transmission and Drive Line Units of Light Vehicles

Unit level (MQF): 3

Credits: 5

Delivery Mode: Face to Face Total Learning Hours: 125

#### **Unit Description**

In this unit learners will familiarise themselves with the transmission and drive line systems of light vehicle. Learners will gain the ability to identify and locate the various parts of the transmission and drive line units and will have the opportunity to carry out basic inspections and servicing tasks on light vehicles.

In addition to this, learners will have the opportunity to use tools and equipment safely to conduct basic tasks related to such systems. They will also use data sheets and servicing manuals during the inspection and servicing task.

## **Learning Outcomes**

#### On completion of this unit the student will be able to:

- 1. Identify and locate parts and components of a transmission and drive line system in light vehicles;
- 2. Understand the basic operation and function of transmission and drive line components in light vehicles;
- 3. Use tools, equipment, data sheets and manuals during servicing and inspecting systems in light vehicles in a safe manner;
- 4. Replace basic transmission and drive line components according to maker's specifications under supervision.

Prepared date: 2025-06-26 Page 13 of 23

# ETAUT-305-2309: Cooling, Lubrication and Fuel Systems

Unit level (MQF): 3

Credits: 5

Delivery Mode: Face to Face Total Learning Hours: 125

#### **Unit Description**

In this unit, learners will learn about the components/features and basic operational principles of the light vehicle's cooling, lubrication and fuel systems.

Learners will develop the necessary knowledge and skills to perform basic servicing tasks on cooling systems, lubrication systems, fuel systems including petrol and diesel. Learners will also be performing repairs by replacement of major systems components on light vehicles.

Learners will also have the possibility to familiarise themselves with technical workshop manuals and thus be able to follow such manuals whilst doing work on different systems. Learners will also have the opportunity to make use of workshop tools and equipment while performing a number of servicing tasks under supervision. Since learners will be working with tools and equipment they will also become familiar with how to use such tools and equipment in a safe and appropriate manner.

# **Learning Outcomes**

## On completion of this unit the student will be able to:

- Understand the basic principle of operation of different components of light vehicles;
- 2. Perform basic service and repair by replacement under supervision on a vehicle's cooling system;
- 3. Perform basic service and repair by replacement under supervision task on the vehicle's lubrication system;
- 4. Perform basic service and repair by replacement under supervision tasks on the vehicle's fuel system including Petrol and Diesel.

Prepared date: 2025-06-26 Page 14 of 23

# ETAUT-305-2310: Power Systems - Diesel, Petrol, LPG, Electrical and Hybrid Power

Unit level (MQF): 3

Credits: 5

Delivery Mode: Face to Face Total Learning Hours: 125

#### **Unit Description**

In this unit, learners will learn about the basic operational principles of a Diesel, Petrol, LPG power and electrical/ hybrid power systems used in light vehicles.

Learners will familiarise themselves with the important parts and components of such systems and thus will develop the necessary knowledge and skills to perform basic servicing and repair tasks under supervision and according to the workshop manuals. This will give learners the opportunity to follow workshop safety procedures and use a variety of tools and equipment safely.

With regards to the Diesel, Petrol and LPG learners will have the opportunity for hands on experience on the system by dismantling, identifying the fault with the technician as well as assembling the power system when the fault is fixed.

In relation to the Electrical and Hybrid power systems, learners will be given basic understanding of this vehicles' technology. As well as understand the principles of operation and basic repair of such vehicles.

# **Learning Outcomes**

## On completion of this unit the student will be able to:

- 1. Understand the basic operating principles of Diesel, Petrol, LPG, electrical and hybrid power systems;
- 2. Locate the different components of a light vehicle's power systems;
- 3. Perform basic maintenance tasks under supervision on the main components and sub systems of Electric and Hybrid vehicles;
- 4. Use the appropriate tools and working procedures to carry out service and repair tasks by replacement in a diesel, petrol and LPG power systems under supervision.

Prepared date: 2025-06-26 Page 15 of 23

# CDKSK-304-2313: English

Unit Level (MQF/EQF): 3

Credits: 4

Delivery Mode: Fully Face-to-Face Learning

Total Learning Hours: 100

### **Unit Description**

This unit is targeted at learners proceeding from a Level 2 vocational programme as well as those whose entry level is directly at Level 3. It therefore takes into consideration both learners who have successfully passed their L2 English unit as well as those who have sat for, or are resitting, their SEC English Language (Y11).

At Level 3, learners are expected to have an intermediate knowledge of English which allows them to independently communicate on topics and scenarios related to everyday situations, these ranging from home, school, and work to social and public settings. For the purposes of bridging linguistic skills with vocational contexts, general emphasis is laid on work and public settings.

English at Level 3 encourages learners to combine their technical knowledge of their vocational subject with their growing knowledge of general English. They will be introduced to specialised vocabulary and information related to their area of vocational interest, to descriptions of materials and their properties, equipment and its usage. They will be exposed to video content and a range of short texts of a technical and non-technical nature, as well as learn how to conduct basic research to produce short but effective work or discipline-specific documents. A fuller understanding of spoken and written English as well as proper association of ideas are also expected at this level.

# **Learning Outcomes**

### On completion of this unit the learner will be able to:

- 1. Retrieve and interpret information obtained from spoken conversation, a presentation, or a media source.
- 2. Communicate information and ideas verbally on a range of topics, ranging from the vocational to the discipline-specific.
- 3. Retrieve and interpret information present in vocational or discipline-specific texts.
- 4. Show how ideas, whether complementary or contrasting, are to be organised and presented.
- 5. Write short work-related texts, observing format, tone, and style.
- 6. Write longer vocation or discipline-specific texts based on researched information.

Prepared date: 2025-06-26 Page 16 of 23

## CDKSK-304-2315: Il-Malti

Il-Livell tal-Unità: (MQF/EQF): 3

L-Għadd ta' Kreditu: 4 Mod ta' Tagħlim: Prezenti

Total ta' Sighat ta' Taghlim: 100

# Deskrizzjoni Ġenerali tal-Unità

Il-Malti huwa l-ilsien nazzjonali tal-pajjiż. Huwa l-ilsien nattiv tal-istudenti li se jkunu qed isegwu din l-unità. Għaldaqstant m'hemmx dubju dwar l-importanza li l-istudenti għandhom ikunu profiċjenti fi lsien pajjiżhom, l-ilsien li ġeneralment iridu jikkomunikaw bih, kemm fil-ħajja tagħhom ta' kuljum u b'mod speċjali fuq il-post tax-xogħol.

Din l-unità hija msejsa fuq l-erba' ħiliet prinċipali tal-lingwa: 1) il-Qari; 2) is-Smigħ; 3) il-Kitba u 4) it-Taħdit. L-għan prinċipali ta' din l-unità huwa li l-istudenti jiġu mħarrġa f'dawn l-erba' ħiliet biex jibnu fuq dak li diġà jafu u jkomplu jtejbuh. Fil-fatt, il-livell ta' din l-unità jkompli jittarraġ fuq il-livell miksub fl-unità tat-tieni livell. F'din l-unità, il-materjal kopert ikun aktar kumpless mill-materjal tal-unità preċedenti partikularment fejn jidħol vokabolarju tekniku marbut mal-qasam vokazzjonali. F'din l-unità l-istudenti huma mistennija wkoll jaħdmu b'aktar awtonomija u responsabbiltà u jkunu mħeġġa jieħdu aktar inizjattiva waħedhom.

Il-kuntest tat-tagħlim u t-tgħallim tal-erba' ħiliet huwa ġeneralment marbut mal-qasam vokazzjonali tal-istudenti. Għaldaqstant, f'din l-unità l-istudenti se jkunu preżentati prinċiparjament b'materjal bil-Malti li jinteressahom mill-qrib u li se jkompli jkabbar l-għarfien ġenerali tagħhom dwar il-qasam vokazzjonali magħżul minnhom. Temi kurrenti oħra dwar il-ħajja ta' kuljum jistgħu wkoll jiġu preżentati u mistħarrġa. It-temi mistħarrġa f'dan il-livell jitolbu aktar impenn minn dawk tat-tieni livell u l-kuntesti tat-temi jistgħu ma jkunux dejjem ta' natura familjari mal-istudenti.

Il-qari, is-smigħ, il-kitba u t-taħdit huma l-qofol tal-komunikazzjoni. Kull persuna Maltija għandha tħossha kunfidenti meta tiġi biex tikkomunika bil-Malti, kemm verbalment u kemm bil-kitba. Biex l-istudenti jtejbu l-Malti miktub tagħhom, f'din l-unità se tkun qed tingħata wkoll importanza lill-ortografija, b'enfasi fuq ir-regoli tal-grammatika. L-għan mhuwiex li l-istudenti jsiru familjari ma' listi ta' termini grammatikali jew li l-istudenti jaħdmu eżerċizzji ripetuti tal-grammatika. L-għan hu li jkunu jafu jħaddmu r-regoli tal-grammatika biex jiktbu b'Malti ortografikament tajjeb. Dan se jkun qed isir dejjem f'kuntest, b'mod partikulari f'kuntest marbut mal-qasam vokazzjonali tal-istudenti. F'din l-unità, se tkun ukoll qed tingħata importanza partikulari lid-deċiżjonijiet meħuda mill-Kunsill Nazzjonali tal-Ilsien Malti fl-2008 (Deċiżjonijiet 1) u fl-2018 (Deċiżjonijiet 2).

## Il-Kisbiet mit-Tgħallim

## Biex l-istudent jikseb din l-unità irid juri li kapaċi:

- 1. Jidentifika t-tifsir primarju u sekondarju ta' testi moqrija aktar kumplessi.
- 2. Jagħraf il-messaġġi diretti u indiretti ta' kuntesti ta' smigħ aktar kumplessi.
- 3. Jipprodući kitbiet b'temi teknići u aktar kumplessi.
- 4. Jikkomunika b'Malti tajjeb dwar suġġetti tekniċi u aktar kumplessi permezz tattaħdit.
- 5. Japplika r-regoli tal-grammatika tajjeb għal tisħiħ fl-ortografija.

## CDKSK-304-2314: Mathematics

Unit Level (MQF/EQF): 3

Credits: 4

Delivery Mode: Fully Face-to-Face Learning

Total Learning Hours: 100

### **Unit Description**

This unit aims to help students understand key mathematical concepts and gain the necessary skills, to be able to use mathematics as a problem-solving and a communication tool in their everyday life and the vocational area they are studying. This unit comprises of three main components: a compulsory component, an elective component and a compulsory final project.

The compulsory component includes one compulsory learning outcome whose mathematical content and respective criteria are key in everyday life and across all vocational areas. On the other hand, the elective component is made up of a set of elective learning outcomes which include mathematical content and respective criteria whose relevance varies across different vocational areas. Consequently, every Institute can select the learning outcomes (50 marks) whose content and criteria will help students in the particular vocational area.

Moreover, this unit will give students the opportunity to use mathematics in a project related to the vocational area they are studying. Consequently, students will experience the relevance of the subject at first-hand and hence engage better in their vocational studies.

Considering the importance of technology in today's world, technological tools, such as scientific calculators and computer software, will be used to assist students in their work and enhance their understanding and confidence in the subject.

By the end of this unit, students should demonstrate readiness and competency to independently apply mathematical techniques in solving problems and be able to communicate findings using appropriate vocabulary and rigor.

# **Core Learning Outcomes**

On completion of this unit the learner will be able to:

- Compute numerical calculations involving fractions, decimals, percentages and units of measure.
- 2. Apply Mathematics in a practical way.

Prepared date: 2025-06-26 Page 19 of 23

## **Elective Learning Outcomes**

On completion of this unit the learner will be able to:

- 1. Apply basic numerical skills in personal, household and business financial contexts.
- 2. Carry out algebraic manipulations.
- 3. Use algebra and graphs to derive information from straight lines and their equation.
- 4. Work with shapes and angles.
- 5. Summarise and interpret statistical data both graphically and numerically.

# CDKSK-304-2501: Community Social Responsibility

Unit Level (MQF/EQF): 3

Credits: 4

Delivery Mode: Fully Face-to-Face Learning

Total Learning Hours: 100

### **Unit Description**

This key skill presents an opportunity for MQF level 3 learners to work upon their analysis and evaluation capabilities, whilst working upon various employability skills. Through the compilation of a write-up, the learners will be drafting a personal biography, which highlights some of their achievements and future aspirations. The write-up will also feature the rationale behind the selection of a specific community work experience. Additional information, descriptions and anecdotes related to the community work will be provided via visual and written means.

As each learner goes through this educational journey, opportunities for social interactions and practical groupwork activities will also be presented. Through these opportunities, students will further grasp the essence of teamwork and its relevance towards becoming more competitive and employable.

Following the delivery of a selected number of educational topics, some of which targeting 'The 2030 Agenda for Sustainable Development', the learners are to select a topic of preference and deliver relating information through a public speech. The main essence of the contents of the speech are to be acquired through referenced research. The learners are to increase the success rate of their speech delivery through the proper structuring and compilation of a visual medium compiled via software, such as PowerPoint / Canva.

Additionally, learners will also be presented with multiple opportunities to conduct self-reviews and evaluations during assessment periods. This practice is embedded within all of the assessments, these being the write-up, the teamwork activity, and the presentation. Educators will guide the learners into practicing and understanding the importance of analysing and evaluating information and oneself, as, apart from increasing one's employability skills, this brings forth numerous opportunities for growth.

# **Learning Outcomes**

### On completion of this unit the learner will be able to:

- 1. Organise selections of information within a write-up.
- 2. Shows the ability to work in teams.
- 3. Elaborate upon a topic and/or issue in front of an audience.
- 4. Appraise the quality of one's own effort and contributions within assigned tasks.

# CDKSK-304-2316: Information Technology

Unit Level (MQF/EQF): 3

Credits: 4

Delivery Mode: Fully Face-to-Face Learning

Total Learning Hours: 100

### **Unit Description**

This unit aims to develop basic computer knowledge and skills needed in real-life situations. In a supportive environment, the learner will be challenged to understand how to use various real-life applications belonging to a productivity suite with the aim of providing to our learners the necessary skills required to use common computer applications necessary during their studies. By the time learners complete this unit they will be increasingly independent users of personal computers and will have a broad understanding of how ICT can help their learning, their work, and their social life. They will have a well-developed ability to decide when and how to use ICT and will be aware of the limitations associated with this use.

Through this unit the learners will achieve a broad knowledge of ICT and will be able to use ICT to carry out several increasingly complex tasks. They will become competent in using word processing, spreadsheet, and presentation software to create, format and finish documents, workbooks and slide shows that contain various elements. This unit also introduces terms related to artificial intelligence and how it is being used in real life situations, information literacy and the use of online communities and online tools to build and maintain an online presence.

# **Learning Outcomes**

To choose 4 Learning Outcomes out of 5:

On completion of this unit the learner will be able to:

- 1. Use Office Productivity Essentials to create documents and presentations.
- 2. Identify concepts related to Artificial Intelligence.
- 3. Use Online Essentials Tools.
- 4. Identify concepts related to Information Literacy.
- 5. Use a spreadsheet to produce accurate work outputs.

# CDKSK-304-2317: Science and Technology

Unit Level (MQF/EQF): 3

Credits: 4

Delivery Mode: Fully Face-to-Face Learning

Total Learning Hours: 100

### **Unit Description**

This unit enables learners to explore the role of science in a wider context. This unit has eight elective learning outcomes, from which four must be selected by the institute. Depending on the selection of the elective criteria, this unit enables learners to explore the role of science in a wider context. The learning outcomes will focus on the ethical issues in science and health literacy. Learners will understand the meaning of ethics and the importance of ethics in scientific research and development. They will also learn about the importance of health literacy and to understand and use information to make decisions about their health. The learners may also more familiar with the physical and chemical principles related to their individual vocational area. Also, they will understand the connection between climate change and human health. This learning outcome will help the learner understand how our vocational area and everyday life contribute to climate change. Furthermore, the impact of climate change on own personal life will be assessed. Learners may also enhance their investigative skills through a site visit applicable to vocational areas, for example to include option to visit - quarry, scrap yard, waste disposal area, amongst other. During this session, the learners will be empowered to take action to develop a project that addresses, for example, an environmental issue.

## **Elective Learning Outcomes**

### On completion of this unit the learner will be able to:

- 1. Investigate ethical issues in science and scientific developments.
- 2. Use information and services to make informed health-related decisions.
- 3. Investigate processing of materials relevant to individual vocational area.
- 4. Apply chemistry principles to vocational area of practice.
- 5. Identify basic chemical reactions.
- 6. Identify the connection between climate change and human health.
- 7. Carry out a fieldwork session related to scientific research and development.
- 8. Identify the link between the physical world and everyday day life situations.
