

ONLINE LEARNING AT MCAST: GUIDELINES TO CONTINUE A LEARNING PROCESS FROM HOME.

Dear students

The pandemic COVID-19 has forced countries around the world to take drastic measures to contain it. Malta is no exception and government announced the closure of all teaching and learning in educational institutions. This measure implies that the College-based contact between lecturers and students will be missed for the coming week which could also be extended to more days and weeks.

In order to ensure continuity of learning, you are requested to kindly follow your lecturers' instructions regarding any online learning that might be taking place within your study programme. In these circumstances, you are strongly encouraged to use this time to keep up with your studies and avail yourself of the possibility to engage in any online learning opportunities offered during these days.

Below are guidelines on how you can access such online learning environments:

You can access **Classter** using your MCAST email address username and password through:

<http://mcast.classter.com>

Type in your email address and password to log in.
