

MCAST

MQF/EQF Level 6

CA6-03-22

B.A. (Hons) in Game Art

Course Specification

Course Description

This degree programme has been developed in response to the increased demand for trained artists and designers who are able to produce visual concepts and assets for digital games. Learners will acquire grounding in essential art and design principles as well as basic knowledge in game creation using industry-standard software. They will continuously reinforce applied skills while relating relevant theories in game and visual design, storytelling, and IP development. In their final year of studies, Learners will be able to team up with students from the Interactive Digital Media programme to create functional video games.

Programme Learning Outcomes

At the end of the programme the learner will be able to:

- 1. Develop and prepare 2D and 3D assets for use in a game.*
- 2. Identify game aesthetics and the role it plays within the pipeline of building a game.*
- 3. Work to a broad range of game design briefs within different contexts.*
- 4. Apply traditional and digital art principles and methods to game design briefs.*

Entry Requirements

MCAST Advanced Diploma in Digital Design

OR

MCAST Advanced Diploma in Art and Design

OR

2 A-Level passes and 2 I-Level passes

Compulsory A-Level: Art

Other Entry Requirements

Applicants may be asked to sit for an Interview and/or present their Portfolio.

Key Information

Awarding Body - MCAST

Accreditation Status - Accredited via MCAST's Self Accreditation Process (MCAST holds Self-Accrediting Status as per 1st schedule of Legal Notice 296/2012)

Type of Programme: Qualification

MQF Level	Examples of Qualifications	'Qualification' Minimum Credits Required	'Award' Credits Required
Level 8	Doctoral Degree Third Cycle Bologna Process	NA	NA
Level 7	Masters Second Cycle Bologna Process	90-120	Less than 30
	Post-Graduate Diploma	60	
	Post-Graduate Certificate	30	
Level 6	Bachelor ²³ /Bachelor (Hons.) ²⁴ First Cycle Bologna Process	180-240	Less than 180
Level 5	Short Cycle Qualification	120	Less than 60

Total number of Hours: 4500

Mode of attendance: Full Time

Duration: 3 Years

Target audience for MCAST full-time courses is 16 to 65+

The official language of instruction at MCAST is English. All notes and textbooks are in English (except for language courses which will be in the respective language being instructed). International candidates will be requested to meet English language certification requirements for access to the course.

This course will be offered at

MCAST has four campuses as follows:

MCAST Main Campus

Triq Kordin, Paola, Malta

All courses except for the Institute for the Creative Arts, Centre of Agriculture, Aquatics and Animal Sciences are offered here.

Institute for the Creative Arts

Mosta Campus

Misraħ Għonoq Targħa Gap,
Mosta

**Institute of Applied Sciences,
Centre of Agriculture, Aquatics and Animal Sciences,**
Luqa Road, Qormi

Gozo Campus

J.F. De Chambray Street
MCAST, Għajnsielem
Gozo

Teaching, Learning and Assessment

The programmes offered are vocational in nature and entail both theoretical lectures delivered in classes as well as practical elements that are delivered in laboratories, workshops, salons, simulators as the module requirements dictate.

Each module or unit entails a number of in person and/or online contact learning hours that are delivered by the lecturer or tutor directly (See also section 'Total Learning Hours').

Access to all resources is provided to all registered students. These include study resources in paper or electronic format through the Library and Resource Centre as well as tools, software, equipment and machinery that are provided by the respective institutes depending on the requirements of the course or module.

Students may however be required to provide consumable material for use during practical sessions and projects unless these are explicitly provided by the College.

All Units of study are assessed throughout the academic year through continuous assessment using a variety of assessment tools. Coursework tasks are exclusively based on the Learning Outcomes and Grading Criteria as prescribed in the course specification. The Learning Outcomes and Grading Criteria are communicated to the Student via the coursework documentation.

The method of assessment shall reflect the Level, credit points (ECTS) and the schedule of time-tabled/non-timetabled hours of learning of each study unit. A variety of assessment instruments, not solely Time Constrained Assignments/Exams, are used to gather and interpret evidence of Student competence toward pre-established grading criteria that are aligned to the learning outcomes of each unit of the programme of study.

Grading criteria are assessed through a number of tasks, each task being assigned a number of marks. The number of grading criteria is included in the respective Programme Specification.

The distribution of marks and assessment mode depends on the nature and objectives of the unit in question.

Coursework shall normally be completed during the semester in which the Unit is delivered.

Time-constrained assignments may be held between 8 am and 8 pm during the delivery period of a Unit, or at the end of the semester in which the Unit is completed. The dates are notified and published on the Institute notice boards or through other means of communication.

Certain circumstances (such as but not limited to the Covid 19 pandemic) may lead Institutes and Centres to hold teaching and assessment remotely (online) as per MCAST QA Policy and Standard for Online Teaching, Learning and Assessment (Doc 020) available via link <https://www.mcast.edu.mt/college-documents/>

The Programme Regulations referenced below apply. (DOC 005 available at: link <https://www.mcast.edu.mt/college-documents/>

Total Learning Hours

The total learning hours required for each unit or module are determined as follows:

Credits (ECTS)	Indicative contact hours	Total Student workload (hrs)	Self-Learning and Assessment Hours
1	5 - 10 hrs	25 hrs	20-15 hrs*
2	10 - 20 hrs	50 hrs	40-30 hrs*
3	15 - 30 hrs	75 hrs	60-45 hrs*
4	20 - 40 hrs	100 hrs	80-60 hrs*
6	30 - 60 hrs	150 Hrs	120-90 hrs*
9	45 - 90 hrs	225 hrs	180-135 hrs*
12	60 - 120 hrs	300 hrs	240-180 hrs*

* The 'Self-Learning and Assessment Hours' amount to the difference between the contact hours and total student workload.

Grading system

All MCAST programmes adopt a learner centred approach through the focus on Learning Outcomes. The assessment of MCAST programmes is criterion-referenced and thus assessors are required to assess learners' evidence against a pre-determined set of Learning Outcomes and assessment criteria.

For a student to be deemed to have successfully passed a unit, a minimum of 50% (grade D) must be achieved. In case of part time programmes, the student must achieve a minimum of 45% to successfully pass the unit.

All units are individually graded as follows:

A* (90-100)

A (80-89)

B (70-79)

C (60-69)

D (50-59)

Unsatisfactory work is graded as 'U'.

Work-based learning units are graded on a Pass/Fail basis only.

Detailed information regarding the grading system may be found in the following document: DOC 005 available at: link <https://www.mcast.edu.mt/college-documents/>

Intake Dates

- MCAST opens calls for application once a year between July and August of each year for prospective applicants residing in MALTA.
- Applications to full-time courses from international students not residing in MALTA are accepted between April and Mid-August.
- For exact dates re calls for applications please follow this link <https://www.mcast.edu.mt/online-applications-2/>

Course Fees

MCAST course are free for Maltese and EU candidates. International candidates coming from outside the EU need to pay fees for the respective course. Course fees are set on a per-level and course duration basis. For access to course fee structure and payment methods please visit <https://www.mcast.edu.mt/fee-payments-for-non-eu-candidates/>.

Method of Application

Applications to full-time courses are received online via the College Management Information System. Candidates can log in using Maltese Electronic ID (eID) or European eIDAS (electronic identification and trust services) to access the system directly and create an account as the identity is verified electronically via these secure services.

Non-EU candidates need to request account creation though an online form by providing proof of identification and basic data. Once the identity is verified and the account is created the candidate may proceed with the online application according to the same instructions applicable to all other candidates.

Non-EU candidates require a study visa in order to travel to Malta and joint the course applied for. For further information re study-visa please access <https://www.identitymalta.com/unit/central-visa-unit/>.

For access to instructions on how to apply online please visit <https://www.mcast.edu.mt/online-applications-2/>

CAART-506-1507: Drawing I: Still Life & Landscape

Unit level (MQF/EQF): 5

Credits: 6

Delivery Mode: Face to Face

Total Learning Hours: 150

Unit Description

This unit provides learners with the opportunity to explore drawing concepts and techniques with the aim of encouraging the development of a personal visual language of drawing. Learners will start practicing observational drawing techniques and will explore aspects such as perspective, composition, and mark making. They will be required to draw from various subject matter and will be encouraged to experiment with approaches to drawing and the use of drawing media. The unit will cover some of the various uses of the medium: drawing as a way of exploring ideas and of gathering information about a subject; a means of producing preparatory work; a medium which may be used to produce finished works of art.

Learners should also complete a personal project and are therefore required to develop a personal approach to drawing via the completion of a coherent body of work. Learners will be required to set their own aims, to evolve a technical means to achieve them and to evaluate the success of their approach both during the project and after completion.

Learning outcomes

On completion of the unit students will be able to:

- 1. Use a variety of drawing techniques and media in response to a given subject matter.*
- 2. Produce landscape drawings showing effective use of linear perspective and aspects of composition.*
- 3. Investigate a subject matter of own choice to develop an independent work of art.*
- 4. Present own work for constructive criticism and evaluation by own self and peers.*

CAART-506-1508: Painting I

Unit level (MQF/EQF): 5

Credits: 6

Delivery Mode: Face to Face

Total Learning Hours: 150

Unit Description

This unit is primarily skills based supplemented with elements of visual and written research. Following a programme of practical hands on activity learners will develop their skills through investigation and practical exploration of oil painting materials, equipment and techniques. Teaching and learning will be focused on the process of oil painting and include formal elements of line, shape, colour and composition leading to a portfolio of exploratory works. Learners will demonstrate their learning in response to a given brief within the wider context of a Fine Art project. Contextual research will help the learner further demonstrate a deeper understanding of both the history and contemporary practice of oil painting evident in the form of written notes and selected images.

Learners will produce a portfolio of artworks together with written research as evidence to demonstrate their knowledge and skills for the unit. This understanding will then be contextualised within the context of a fine art project.

The unit is relevant to learners who wish to develop an understanding of how to create oil paintings within the context of a fine art practice. Although an introductory unit learners are recommended to have a foundation level of competency for fine art practice. Learners should be familiar with rudimentary research methodologies such as accessing information from libraries and making specific task orientated Internet searches.

Learning Outcomes

On completion of this unit the student will be able to

- 1. Use a range of oil painting methods, techniques, materials and equipment effectively.*
- 2. Manipulate colour in oil paintings.*
- 3. Use composition devices in oil painting to direct the visual experience.*
- 4. Create a painting or paintings that presents a personal response to contemporary painting.*

CAART-506-1513: Drawing II: Anatomy

Unit level (MQF/EQF): 5

Credits: 6

Delivery Mode: Face to Face

Total Learning Hours: 150

Unit Description

This unit is designed to help learners to develop their observational drawing skills and their ability to draw the figure. Learners will become familiar with analytical drawing techniques, anatomy, and the use of drawing media. They will also be encouraged to develop their knowledge on the work of other practitioners. The topics covered in this unit assume some prior experience of drawing from observation.

Upon completion of this unit learners will have a working knowledge of human anatomy and an ability to employ a number of analytical drawing techniques and exercises to enable them to describe what they see through the medium of drawing such as checking angles, vertical and horizontal alignment and measuring. Learners should feel confident in the use of a limited range of drawing media which are pencil, charcoal and ink. Learners will then acquire an understanding of the potential of each drawing media to record visual information. In addition, lectures and exposure to the work of other artists will help learners to develop an understanding of drawing methods and ways of depicting the figure.

During the unit learners will be encouraged to self-critique their work both during creation and after completion. The opportunity to do this will be provided in the form of one to one tuition, group tutorials and via the creation of a portfolio of work for assessment.

Learning Outcomes

On completion of this unit students will be able to:

- 1. Produce figure drawings using the knowledge gained of human anatomy from observation and illustrations*
- 2. Apply the rules of sight-size techniques and foreshortening to produce accurate drawings*
- 3. Produce portrait drawings using the knowledge gained of human anatomy from observation and illustrations*
- 4. Produce creative personal work which explores selected themes in relation to the human body.*

CDKSK-503-1907: English I

Unit level (MQF/EQF): 5
Credits: 3
Delivery Mode: Face to Face
Total Learning Hours: 75

Unit Description

This unit is intended to be run in the first semester of the first year of undergraduate degree programmes and consolidates prior knowledge, skills and competences in English reading, writing, listening and speaking by further strengthening the more academic functions of the language.

English I is intended to be an EAP (English for Academic Purposes), focusing specifically on improving learners' awareness of, and familiarity, with the core skills necessary for successful academic reading and writing in English, especially preparing them for the rigours of extended writing by research and the reading of academic sources of information.

Learners will become familiar with academic features of style and the principles and mechanics of good text structure. They will also learn how to consult, understand and use secondary material from academic sources within their field of study and effectively integrate it as part of a larger argument or body of work.

Learning Outcomes

Upon completing the unit, learners should be able to:

1. *Recognise the form, content and style of academic texts.*
2. *Use an academic style of writing when working on assignments and dissertations.*
3. *Reproduce secondary content by means of direct and indirect quoting methods.*
4. *Apply proper referencing conventions when citing secondary content.*

CDKSK-503-1905: Critical Thinking I

Unit level (MQF/EQF): 5
Credits: 3
Delivery Mode: Face to Face
Total Learning Hours: 75

Unit Description

Critical Thinking is the intellectual discipline of actively and skilfully conceptualising, applying, analysing, synthesising, and evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication as a guide to belief and action.

This unit equips learners with sought after skills essential to the vocational and academic life. Its main focus is on frameworks of reflective practice and ideology which are exemplified through the building of a critical readership by means of close-reading techniques and reflective writing. By integrating theories of reflective writing and the nature of evidence from sources of information, this unit equips learners with the means to read, interpret, reflect and write critically and reflectively.

The application of close-reading techniques and ideology is also addressed in this unit. Close-reading is the careful, critical analysis of a text that focuses on significant details or patterns in order to develop a deep, precise understanding of the text. Ideology is also addressed, with particular focus on areas of practical research that lie at the confluence of social, political, and technological concerns.

The final aim behind Critical Thinking I is to facilitate a deep, transformative, and unique learning experience.

Learning Outcomes

Upon completing the unit, learners should be able to:

- 1. Identify the different reflective frameworks that can be used to enable critical reflection and thinking.*
- 2. Apply the appropriate methodology to write in an analytic reflective manner.*
- 3. Apply close-reading techniques to secondary research.*
- 4. Explain the importance of ideology in critical thinking.*

CAART-506-1515: Critical Studies & Research Methods

Unit level (MQF/EQF): 5

Credits: 6

Delivery Mode: Face to Face

Total Learning Hours: 150

Unit Description

The unit is intended for use in a range of creative arts programmes and has both theoretical and practical outcomes in the form of personal research activity and the production of a proposal for a degree year dissertation.

The unit provides an overview of research theory and methodology, including primary, secondary, qualitative, and quantitative and practice led research methods. In addition to providing practical instruction on writing research proposals.

This unit also provide the learners with skills to critically analyse research findings and also see the differences between descriptive and critical writing as well as the accepted academic formats for writing essays, papers and reports using accepted academic referencing and citation systems.

In this unit, based upon lectures which present relevant content related to the creative arts theoretical contexts, learners will prepare and undertake practical activity in the preparation of a proposal for a vocationally relevant research study. Which will comprise of a planned literature review and the use of vocationally relevant methods to undertake primary research.

Learners will also undertake critical analysis of research findings and prepare written work to an accepted academic format using accepted citation and referencing. The work of the unit culminates in learners undertaking an individual self-evaluation of the effectiveness of their research processes and activity.

Learning Outcomes

On completion of this unit the student will be able to:

- 1. Organize the research gathered using research theory, methodology and practice led research for a potential dissertation topic*
- 2. Analyse critically the findings from own research and present it in an appropriate format.*
- 3. Produce in given format the research proposals in academic writing style using accepted academic referencing and citation systems.*
- 4. Present orally and in writing the final proposal for a vocationally relevant research study within own area of interest in the creative arts.*

CDKSK-503-1906: Critical Thinking II

Unit level (MQF/EQF): 5
Credits: 3
Delivery Mode: Face to Face
Total Learning Hours: 75

Unit Description

Critical Thinking is the intellectual discipline of actively and skilfully conceptualising, applying, analysing, synthesising, and evaluating information gathered from, or generated by, observation, experience, reflection, reasoning, or communication as a guide to belief and action.

This unit equips learners with sought after skills essential to the vocational and academic life. Its main focus is on demonstrating how concepts of validity, reliability and credibility of information are highly necessary when formulating objective, analytical arguments and reaching sound conclusions. Furthermore, individuals who can critically interpret information and evaluate its origin, inherent biases, fallacies and strengths are known to be more perceptive, responsive to illogical argument and can formulate arguments more effectively.

Learning Outcomes

Upon completing the unit, learners should be able to:

1. *Determine the main features and components of explicit arguments.*
2. *Demonstrate effectively basic logical reasoning in a given task.*
3. *Consider common flaws in argumentation.*
4. *Construct objective, analytical arguments and conclusions for chosen issue.*

CDKSK-602-2105: Community Social Responsibility

Unit level (MQF/EQF): 6

Credits: 2

Delivery Mode: Face to Face

Total Learning Hours: 50

Unit Description

This unit focuses on community and social responsibility skills and provides an opportunity for learners to better understand themselves and others, as well as establish goals in life. This unit is delivered through a combination of small-group sessions (it is suggested that the number of learners do not exceed 15 learners per class), reflections and community work. Community and social responsibility skills enable learners to understand their strengths and areas that need improvement while preparing them for life, employment and to become active citizens in society.

Moving away from traditional delivery of other units, learners will be empowered to take ownership of their learning process. Hence, this unit will be delivered through a combination of workshops, small-group sessions with mentors and various opportunities to reflect.

The first set of sessions will focus on the self, the ability to work independently and important values in life. The second set of sessions will focus on working with others, dealing with diversity and conflicts. Furthermore, at the end of the sessions, learners will be introduced to the importance of active citizenship in life.

Learning Outcomes

Upon completing the unit, learners should be able to:

- 1. Identify personal goals through self-reflection.*
- 2. Evaluate how collaboration with others can be more effective.*
- 3. Explain the importance of giving and receiving feedback.*
- 4. Contribute actively to make a difference in society.*

CDKSK-604-1909: Entrepreneurship

Unit level (MQF/EQF): 6
Credits: 4
Delivery Mode: Face to Face
Total Learning Hours: 100

Unit Description

The working definition of '**entrepreneurship**' employed in this unit is that stated by the European Commission: "*Entrepreneurship refers to an individual's ability to turn ideas into action. It includes creativity, innovation and taking calculated risk, as well as the ability to plan and manage projects in order to achieve objectives. This supports everyone in day-to-day life at home and in society, makes employees more aware of the context of their work and better able to seize opportunities, and provides a foundation for entrepreneurs establishing a social or commercial activity*" (Entrepreneurship in Vocational Education & Training, June 2009).

In line with this definition, the unit places an emphasis on fostering a mind-set that *entrepreneurship* is the vehicle that drives *creativity* and *innovation*. The learner will, amongst others, be encouraged to gain an insight as to how to investigate customer needs and markets to generate an innovative idea for a start-up; participate in the realistic simulation of the creation of a start-up¹; create and pitch sections of a business plan, as well as draft sections of a business plan for an identified business idea.

The assessment of the unit is designed in a way to provide an opportunity for learners to strengthen transversal competencies which UNESCO highlights as necessary for the 21st century. These include intrapersonal skills, interpersonal skills, critical and innovative thinking, media and information literacy and global citizenship.

Learners with different backgrounds and experiences are required to contribute actively in a team to prepare the necessary work towards initiating a successful business venture.

¹ 'Doing effective entrepreneurship' is firmly grounded in theory, yet the *chalk and talk* delivery mode is not promoted in this unit. Rather, *actionable theory through practice* is strongly encouraged. *Realistic simulations*, limited not only to in-class activities such as *discussions* of the problems faced in the different phases of a business, especially in the process of commercialisation of innovative products and services, and *on-paper* creative management strategies, are considered essential.

In this unit, learners will become familiar not only with the main theories related to entrepreneurship and business start-ups but will have the opportunity to explore, interact and learn from a number of first-hand situations. The challenges of working with diverse team members will provide the learners not only with the possibility to look at entrepreneurship ideas from different perspectives, but also to come up with more creative, original and feasible solutions to challenges that will arise.

The practical and realistic element of the unit will allow learners to engage and interact with different stakeholders from industry and public institutions. This real-life interaction will provide the ideal set up to link theory with practice in the real world. Learners are encouraged to get out of their comfort zone and explore their entrepreneurial spirit by combining creativity, innovation and risk taking to help seize an opportunity, improve current situations or solve problems they encounter in the real world.

Learning Outcomes

On completion of this unit the learner will be able to:

- 1. Understand the terms “entrepreneurship” and “entrepreneur” and techniques used to generate and evaluate business ideas.*
- 2. Examine important considerations while developing a new business idea.*
- 3. Apply business planning and control initiatives while developing a new business idea.*
- 4. Contribute effectively in a team to develop a concept prototype of a feasible product/service idea.*

CDKSK-503-1908: English II

Unit level (MQF/EQF): 5
Credits: 3
Delivery Mode: Face to Face
Total Learning Hours: 75

Unit Description

This unit is intended to be run in the second semester of the second year of undergraduate degree programmes and consolidates prior knowledge, skills and competences of Academic English by further strengthening reading, writing, listening and speaking skills as determined by the rigours of pre-dissertation research.

English II is targeted at learners who have successfully completed their degree programme's first year and exposes undergraduate students to a higher level of critical reading and writing skills demanded in the second and final years of the degree programme. This usually involves the identification and select reading of academic texts, their review and their eventual use in a research proposal, dissertation and academic presentation.

It is also the objective of this unit to train learners to be more aware of, and proficient in, spoken Academic English as this becomes a key requirement at this level of studies.

Learning Outcomes

Upon completing the unit, learners should be able to:

1. *Evaluate academic sources of information when working on own dissertation.*
2. *Produce texts of an academic nature using appropriate language and style.*
3. *Communicate verbally in a manner which conveys proficiency of the subject being researched.*
4. *Respond effectively to key questions in relation to research in own field.*

CAART-606-1633: Law and Ethics

Unit level (MQF/EQF): 6
Credits: 6
Delivery Mode: Face to Face
Total Learning Hours: 150

Unit Description

In this unit learners will have a first approach to law and ethics and to their applications to art and communication.

They will have the opportunity to have a sight of what is law, what are juridical systems, how to compare them and what are their historical roots. They will be guided into juridical concepts like “rule of law”, “right” and “source”.

They will then apply the juridical approach to their activity. They will learn how their activity can be labelled from a juridical point of view, then work on the right of expression and its juridical and factual limitations. Then they will work on copyright and defamation.

In addition to this learners will have the occasion to approach ethics. They will work on some ethical concepts like “good” and “bad”, “right” and “wrong” as well as approach some ethical systems. Thus learners will realize how one can know or decide that something is good or bad and focus on some contemporary ethical issues. Moreover learners will also apply the ethical approach to their activity. They will explore their personal ethical system and discover their inner values, working on them and also on the influence that ego and emotions have on them. Finally, learners will then identify possible ethical issues in their activity and in team working.

Learning Outcomes

On completion of this unit the learner will be able to:

1. *Understand what is a juridical point of view in relation to work in the different sectors of the creative arts.*
2. *Understand the definition of an ethical point of view in relation to various areas of the creative arts.*
3. *Identify possible juridical problems related to own area in creative media*
4. *Choose which ethical approach to use in relation to own creative media area*

For further information, please contact us on information@mcast.edu.mt
